

SCMS Seminar

SPECTRAL THEORY OF FREE GROUP REPRESENTATIONS

Speaker: Jean-Francois Quint
CNRS & Montpellier University

Time: Friday, November 14th; 9:30-10:30

Venue: Room 102, SCMS

Abstract:

In this talk, I will define a new family of unitary representations of (virtually) free groups. The interest of these representations lies in the fact that for them, certain spectral invariants may be computed explicitly.
