

RECTIFIABILITY IN METRIC SPACES

Speaker: Ganghui Lin
Shanghai Center for Mathematical Sciences

Time：Fri, Nov 13th, 9:45 - 10:15
Venue: Room 106, SCMS

Abstract:

This talk will briefly review classical Reifenberg-type theorems and their extensions to metric spaces, together with quantitative criteria for rectifiability based on Jones β-numbers. I will also discuss recent progress on Reifenberg parametrization and rectifiability in metric spaces, as well as several directions for further development.
