

GEOMETRIC FOLIATIONS IN HYPERBOLIC 3-MANIFOLDS

Speaker: Zeno Huang
City University of New York

Time: Thur, June 26th, 10:00 - 11:00

Venue: Room 106, SCMS

Abstract:

Foliations are important geometric structures in hyperbolic three-manifolds. I will describe some conjectures on the existence and non-existence for minimal foliations and CMC foliations and recent progress.
